Natural stone is a product of nature. Surface texture and color will vary piece to piece and crate to crate. Our partnering quarries work hard to ship consistent, high quality product, but you should expect variation. Samples are suggested, but will not guarantee color. We highly recommend all material be delivered prior to installation and that available material is blended throughout your project. Each installation will be uniquely different and perfectly created in nature!

**NATURAL STONE WARRANTY**

Natural stone products are naturally occurring materials and therefore are sold "as-is" and include no warranty. Manthei Supply does not control the purchaser's project design or selection of any product for their intended purpose. It is the sole responsibility of the purchaser to determine their project design and the suitability of the product they have selected for their intended use.
